

Dear Sirs: Please do everything possible to stop telemarketing.....The older my husband and I get the worse it is to get numerous calls regarding buying things that never in the world would we want....It is getting harder and harder for us to get to the phone and many many times there is nobody there to even tell them to take us off the phone list. It is an invasion of privacy for them to make numerous calls when we don't want them to call us..... I have told numerous callers to take our name off their list, but there are new companies calling us. Just this morning we have gotten 2 calls --- one having to do with a Disney something and the other - nobody was there.....Again I say --- STOP THOSE CALLS.....we don't want any of them.....Sincerely, Arden Sather.....  
Thank you.....
